Welcome Message From The CEO

It's a pleasure to welcome you to Olatoserve Project Ltd!

As CEO, I'm incredibly proud of our team and the work we do as a first-class engineering consulting and contracting company. We specialize in Electrical, Mechanical, Industrial, and Air-conditioning Services, and our commitment to excellence is at the heart of everything we undertake.

At Olatoserve, we believe in delivering innovative solutions and reliable services that not only meet but exceed your expectations. We're dedicated to providing the highest quality in engineering expertise, ensuring your projects are executed with precision, efficiency, and safety.

Thank you for choosing Olatoserve Project Ltd. We look forward to partnering with you and contributing to your success.

Sincerely,

Engr. ADEKANYE EBENEZER OLAITAN
CEO, Olatoserve Project Ltd

About Olatoserve

A World-class Company With Years of Experience

A KEY PLAYER IN THE ENGINEERING INDUSTRY

OLATOSERVE PROJECT, a wholly – owned Nigerian Company was incorporated for the purpose of providing first class Engineering Consulting and Contracting services in the areas of Electrical, Mechanical, Industrial, and Air-conditioning Services.

OLATOSERVE PROJECT has the capability to undertake all activities in Engineering Consulting and contracting of mechanical and electrical engineering installations and subsequently carry out the Engineering Procurement and Construction (EPC) of various types of Mechanical, Electrical and Industrial engineering projects.

OUR VISION

To be the leading and most trusted engineering consulting and contracting firm in Africa, recognized for our innovative solutions, unwavering commitment to quality, and significant contribution to infrastructural development.

OUR MISSION

To provide comprehensive and cutting-edge engineering solutions in Electrical, Mechanical, Industrial, and Air-conditioning services, consistently exceeding client expectations through technical expertise, ethical practices, and a dedication to safety and sustainability.

OUR MISSION

Of all the things that we do and all the exciting projects that Olatoserve undertakes on a daily basis, it's our people who are the foundation of our success. Our people bring unique skills, energy, expertise, experience and perspectives to our workforce.

Our Core Business

Backed by a team of highly specialized professionals, OP is equipped for all type of building services system Design and installation in Electrical and Mechanical Installation, infrastructure and facilities management of:

Electrical services include Medium, Low Voltage Systems, and Extra Low Voltage Systems Medium and Low Voltage System

- Internal and external lighting solutions
- General power distribution
- Mains and Sub-mains distribution
- Infrastructure cabling and terminations
- Installation of panel boards and switchboards
- Circuit protection
- Transformer cabling and installations
- Generator installations

Extra Low Voltage Systems

- Fire alarm and detection systems
- CCTV and security systems
- Lightning protections
- Voice and data solutions
- Access control solution
- UPS and Inverter solutions

Also, we offer the following specialized mechanical engineering systems and solutions

- Mechanical ventilation including Sheet metal ductwork fabrication and installations.
- Air-conditioning (mini split, VRF, Packaged units, and Chilled water) systems installations
- Hot and cold-water supply and distribution plumbing system
- Borehole drilling and development
- Water treatment plant installations
- Sanitary wares installation
- Soil and wastewater drainage system installations

The Team

Engineer ADEKANYE OLAITAN, graduated from a reputable institution in Nigeria and has since undergone engineering certification courses both locally and internally.

He possesses an eclectic mix of competencies that traverse the entire spectrum of M+E engineering design, installation and commissioning, Project management and business development. He has his experience in the building services sector working in various capacities across various disciplines.

He spent many years in Port-Harcourt, Rivers State, where he was engaged dealing with installation and commissioning of electrical and mechanical services of several residential, industrial and commercial buildings in Port Harcourt city and environs.

He further worked and developed his engineering skills and other relevant professional experience in the sectors of the industry where he has handled and participated in notable private and commercial projects.

His professional certification includes; Chartered Facility Manager(CFM), Chartered Master Procurement Manager(Ch. MPM), Chartered Business Development Professional(CBDP), Member of Nigeria Institute of Electrical Electronics Engineering (NIEEE), QA & QC Certification, Hse 1,2,3 & Advance. He has attended and participated in seminars and professional trainings.

Olaitan is a well-rounded professional with bias for Project and Engineering Management. He has excellent IT and interpersonal skills.

ADEKANYE EBENEZER OLAITAN
MD/CEO - Olatoserve Projects Ltd.

Engr. Bakare, Shamsideen Adekunle:

Electrical Project Engineer

Engr. Bakare, Shamsideen Adekunle is a highly accomplished and COREN-registered (R-53,011) Electrical Project Engineer at Olatoserve Project Ltd., an Engineering Consulting and Contracting firm specializing in Electrical, Mechanical, Industrial, and Air-conditioning services. A native of Lagos State, Engr. Bakare holds a Bachelor of Science degree in Electrical/Electronics Engineering from the University of Lagos, Akoka-Yaba, Lagos, obtained in 2002, following his secondary education at C.M.S Grammar School, Bariga, Lagos, completed in 1993.

With a robust career spanning over a decade in the engineering sector, Engr. Bakare brings extensive expertise in managing and executing complex electrical projects. His professional journey includes significant roles such as Managing Partner (Technical) at Edifico Limited from 2021 to date, a key position at Megawatts Nig Ltd from August 2018 to 2021, and a valuable tenure at Boritech Nigeria Limited from April 2013 to December 2016. His proven track record in these capacities demonstrates his strong technical acumen, leadership capabilities, and commitment to delivering high-quality engineering solutions. At Olatoserve Project Ltd., Engr. Bakare is instrumental in driving the successful planning, execution, and completion of diverse electrical engineering projects, ensuring adherence to the highest industry standards and client satisfaction.

Engr. Olaogun, Folarin:

Mechanical Project Engineer

Engr. Olaogun, Folarin is a highly skilled and COREN-registered (R.35199) Mechanical Project Engineer at Olatoserve Project Ltd., Hailing from Oyo State, Engr. Olaogun is a dedicated professional with a strong academic background. He earned his B.Tech. (Hons) in Mechanical Engineering from Ladoke Akintola University of Technology, Ogbomoso, Oyo State, where he studied from 2001 to 2007.

A respected member of the engineering community, Engr. Olaogun is affiliated with the Nigerian Society of Engineers (NSE REG.NO – 30745) and the Nigerian Institution of Mechanical Engineers (NIMechE). His professional experience includes a significant tenure at SMDTH Integrated Services Ltd. from September 2017 to the present, and previous work at Q. Tech Engineering Ltd. from 2015 to 2017. With a proven track record in mechanical engineering projects, Engr. Olaogun brings invaluable expertise to Olatoserve Project Ltd., contributing to the successful execution of complex mechanical, industrial, and air-conditioning solutions. He is a committed and married male professional, focused on delivering excellence in every aspect of his work..

Akinrinlola Mathew Akinbowale:

MEP Engineer

Akinrinlola Mathew is a dynamic and dedicated MEP (Mechanical, Electrical & Plumbing) Engineer at Olatoserve Project Ltd., Currently advancing his expertise in Electrical Automotive and Automobile at Hangzhou Vocational and Technical College in Zhejiang, China, Akinrinlola holds a Higher National Diploma (HND) in Electrical/Electronic Engineering from Yaba College of Technology, Lagos State, obtained between 2022 and 2024.

With a strong foundation in electrical engineering, Akinrinlola brings valuable skills to his role, including proficiency in Microsoft Office applications (Word, Excel), Internet research, and AUTOCAD.

He is recognized for his strong team working abilities, capacity to take initiative and work with minimal supervision, and excellent interpersonal skills. Akinrinlola's positive attitude, dedication, and loyalty make him a promising and integral member of the Olatoserve Project Ltd. engineering team, contributing to the company's comprehensive electrical, mechanical, industrial, and air-conditioning services.

Ayorinde James Makinde:

Electrical Engineer

Ayorinde James Makinde is a proficient Electrical Engineer at Olatoserve Project Ltd., . He possesses a solid educational foundation with a Higher National Diploma (HND) in Electrical and Electronics Engineering from Lagos State Polytechnic, Ikorodu, Lagos State (2016-2019), and a National Diploma (OND) in Electrical and Electronics Engineering from D.S Adegbenito ICT Polytechnic, Ogun State (2013-2015).

Ayorinde brings practical experience to his role, having served as an MEP Engineer at POWEREc Global Services Nigeria Limited in Lekki – Phase 1, Lagos State, and as an Electrical Engineer (Operation and Maintenance) at Paras Energy & Natural Resources Development Limited in Ogijo, Ogun State.

His key strengths include strong analytical and troubleshooting skills, excellent IT proficiency, and the ability to accurately interpret MEP drawings. Ayorinde is a valuable team player who can work effectively with minimal supervision and possesses good interpersonal skills, making him a reliable asset to the Olatoserve Project Ltd. team.

He has over 10 years of experience working in the field.

Esther Adegboye:

Electrical Engineer

Esther Adegboye is an accomplished Electrical Engineer at Olatoserve Project Ltd.,. He possesses 8 years of extensive experience in the field, Esther brings a wealth of practical knowledge and expertise to the team. She holds a Higher National Diploma (HND) in Electrical Engineering from Yaba College of Technology, Lagos, providing her with a strong foundational understanding of the discipline.

Esther's professional capabilities are further enhanced by her specialized skills as an expert in Electrical Design & Installation. This proficiency ensures that she can adeptly handle complex electrical projects from conception through to successful implementation, guaranteeing adherence to industry standards and client specifications.

Her robust experience and specialized skills make her an invaluable asset to Olatoserve Project Ltd.'s commitment to delivering first-class engineering solutions.

Sophia Imam Oyinkansola:

Company Secretary

Sophia Imam Oyinkansola is a highly organized and proficient Secretary at Olatoserve Project Ltd.,. She holds a Merit Grade in Guidance and Counseling from Tai Solarin University of Education, where she studied from September 2021 to July 2024.

Sophia's professional experience includes managing the entire business process, from client consultations to garment delivery, at STYLISHSOPHY in Lagos, Nigeria. This background has equipped her with strong organizational skills, client management abilities, and a comprehensive understanding of operational workflows.

Her core strengths lie in her good and advanced proficiency in Microsoft Suite Programs, including Word, Excel, and PowerPoint.

These skills are crucial for efficient document management, data organization, presentation creation, and overall administrative support. Sophia's dedication and adeptness in managing critical office functions make her an invaluable asset to Olatoserve Project Ltd., ensuring smooth administrative operations for their diverse engineering projects.

Her contributions as the company's secretary has led to an increased client-customer satisfaction for the company.

Adeyelu Oluwatosin Esther:

Financial Officer

Adeyelu Oluwatosin Esther is a highly qualified and accomplished Financial Officer at Olatoserve Project Ltd., Her strong financial acumen is built on a solid academic foundation, holding a B.Sc Economics (Upper Division) from Obafemi Awolowo University, Ile-Ife, where she studied from 2014 to 2018.

Further enhancing her professional credentials, Adeyelu Oluwatosin Esther is a certified professional, having attained the ACA (Associate Chartered Accountant) designation from the Institute of Chartered Accountants of Nigeria (ICAN) and the AAT (Accounting Technicians Scheme) qualification from the Association of Accounting Bodies in West Africa.

As the Financial Officer for Olatoserve Project Ltd., Adeyelu Oluwatosin Esther is responsible for overseeing the financial health and strategic financial planning of the company. Her expertise in economics combined with her professional accounting certifications positions her perfectly to manage the company's financial operations, ensure fiscal responsibility, and contribute to the successful execution of projects in electrical, mechanical, industrial, and air-conditioning services. Her dedication to financial precision and strategic oversight is a key asset to the company's continued growth and stability.

Adekanye Olaitan Comfort:

Procurement Manager

Adekanye Olaitan Comfort is a dedicated and highly skilled Procurement Manager at Olatoserve Project Ltd., from Kwara State, Nigeria, Comfort possesses a strong academic background in procurement. She earned her Higher National Diploma (HND) in Purchasing and Supply from Kwara State Polytechnic, where she studied from 2016 to 2018.

Comfort brings valuable practical experience to her role, having served as a Head Teacher at ECWA Baker Group of Schools from 2018 to 2019, where her organizational skills were undoubtedly honed. Prior to joining Olatoserve Project Ltd., she also gained relevant experience as a Store and Supply Personnel at the University of Ilorin Teaching Hospital, which provided a solid foundation in inventory management and supply chain operations.

Her core strengths include excellent computer skills and a proficient command of Microsoft Suite Programs and Softwares, enabling her to efficiently manage procurement processes, analyze data, and streamline supply chain operations for Olatoserve Project Ltd.'s diverse engineering projects. Comfort's expertise ensures timely and cost-effective acquisition of materials and services, crucial for the company's growth.

Olayinka Adewumi:

Electrical Supervisor

Mr. Olayinka Adewumi is a highly experienced and skilled Electrical Supervisor at Olatoserve Project Ltd.,. With a robust 10 years of hands-on experience in the electrical field, Mr. Adewumi brings a wealth of practical knowledge and leadership to the team. As an Electrical Supervisor, Mr. Adewumi is instrumental in overseeing and guiding electrical projects, ensuring that installations, maintenance, and operations are carried out safely, efficiently, and to the highest quality.

Bolaji Tiyaamiyu:

Plumbing Supervisor

Mr. Bolaji Tiyaamiyu is a highly experienced and certified Plumbing Supervisor at Olatoserve Project Ltd., an Engineering Consulting and Contracting service company. With an impressive 15 years of dedicated experience in the plumbing field. His technical proficiency is formally recognized by his Trade Test Certification, highlighting his mastery of plumbing installations, maintenance, and systems.

Afam Peter:

HVAC Supervisor

Afam Peters is a seasoned HVAC Supervisor at Olatoserve Project Ltd., bringing over 15 years of hands-on experience in engineering consulting and contracting. He oversees the planning, installation, commissioning, and maintenance of complex heating, ventilation, and air-conditioning systems across commercial and industrial projects. His leadership ensures projects meet stringent quality, safety, and efficiency standards while staying on schedule and within budget.

Gbenga Ogunmodede:

ELV Supervisor

Mr. Gbenga Ogunmodede is a dedicated ELV Supervisor at Olatoserve Project Ltd. with over 20 years of specialized experience in engineering consulting and contracting. He manages the full lifecycle of extra low voltage systems—including design, installation, testing, and commissioning—to ensure seamless integration across commercial and industrial sites. His strategic oversight guarantees compliance with safety regulations and industry best practices while optimizing system performance.

Sikiru Adesope:

Water Treatment Plant & Borehole Supervisor

Mr. Sikiru Adesope is a seasoned Water Treatment Plant and Borehole Supervisor at Olatoserve Project Ltd. with over 20 years of experience in engineering consulting and contracting. He leads the planning, operation, and maintenance of water treatment and borehole systems, ensuring reliable delivery of high-quality water while upholding rigorous safety and regulatory standards.

Projects

Completed & Ongoing

 LATOSERVE PROJECT. Key management staffs have been involved in many projects from pre-contract through to Design, execution/commissioning, some of which were itemized above.

The Senior Engineering Staff are complemented by a very strong team of next-level Engineers, technicians and draughtsman whose areas of specialization spread across the entire Building Services sub-sector. The fall-out from this is that we can safely boast of expertise in:

1. Installation & commissioning of domestic hot & cold-water supply both internal and external.
2. Installation & commissioning of fire alarm, firefighting, central gas systems.
3. Installation and commissioning of Commercial and residential air-conditioning and ventilation system.
4. Installation & commissioning of security/surveillance (CCTV), access control, public address, telephone and data network systems.
5. Installation of BMS (Building Maintenance Systems) to control and monitor all aspects of works in HVAC, power and water consumption
6. Installation of external lighting systems, lightning, earthing & surge protection systems

Having identified a gap in the provision of seamless service within the Building Services sector, OLATOSERVE is in bi-lateral relationship/partnership with TYCO Company of America (in collaboration with its Nigerian agent i.e Safety Consultants and Solution Provider) to provide quality BMS, CCTV/SURVEILLANCE Systems, Public Address Systems, safety and firefighting design and audit.

List of Projects

COMMERCIAL/ PRIVATE/ MIXED-USED DEVELOPMENTS

- 1 Mechanical, Electrical, air-conditioning and ventilation services for Thirty (30) units of serviced apartments at Festival flats by Updc plc.
- 2 Two (2) towers of 12 floors each consisting of 52 apartments; plumbing, firefighting and Mechanical installation works for IconicTowers residential development at Victoria Island, Lagos by LSDPC.
- 3 Provision of MEP Infrastructure services for 85 Units Housing Estate consisting of water treatment, sewage treatment, borehole drilling and development, fire hydrant and hose reel system, water reticulation services at Atlantic Boulevard Estate, Ajah, Lagos State.
- 4 Twenty-Five (25) Fully serviced apartment on two (2) blocks of Ten (10) storey building for LSDPC at Copper Road, Ikoyi, Lagos; Electrical, Mechanical, Firefighting and suppression, air-conditioning and ventilation services.
- 5 Six (6) Units semi-detached of residential apartment for First Bank Mortgage at Mekunwen road, Ikoyi, Lagos.
- 6 Three (3) blocks of six (6) duplexes each for First bank Mortgage at Bedwell road, Ikoyi, Lagos.
- 7 Four (4) floors of twelve (12) apartments for Droyers Investment Company at Osborne Foreshore.
- 8 A block of twelve (12) duplexes on ten (10) floors residential apartment with infrastructure such as swimming pool, sewage treatment plant, fire hydrant, hose reel, and dry inlet services at Lugard Avenue, Ikoyi for Droyers Investment Company.
- 9 Four (4) blocks of mixed used apartments for SAS Space Design at Bedwell road, Ikoyi, Lagos; Electrical, Plumbing and air-conditioning services.
- 10 Eight (8) floors of Sixteen (16) residential apartments for Index brooks at Admiralty way, Ikoyi, Lagos; Electrical, Plumbing and air-conditioning services.
- 11 Eight (8) units on 3 floors, fully detached 4-bedroom residential apartment for Blackon Investment Company, Ikeja GRA, Lagos; Electrical Installations, sewage treatment, water treatment, plumbing, air-conditioning and ventilation and electrical services.
- 12 Electrical, Mechanical, and Piping Installation Works for several private residential and Mansionettes in Ikoyi, Banana Island Estates, Lekki and Victoria Island.
- 13 Supply of switches and socket, light fittings and accessories for GOLDEN TULIP HOTEL at Jericho, Ibadan.
- 14 Supply of switches and socket, light fittings and accessories for GOLDEN TULIP HOTEL at Admiralty lekki, Lagos.
